

Indications

Usage of emergency/urgency medications and/or formularies not maintained on FLWEMS Advanced Life Support ambulances.

General

FLWEMS Paramedics may use those medications maintained in General Leonard Wood Army Community Hospital – Emergency Department Pyxis-II but not maintained on GSA ambulances for pre-hospital medical/trauma/psychiatric emergencies and intra-facility patient transfers as needed.

In the event that these medications are required, FLWEMS paramedics shall thoroughly document appropriately on Paramedic Patient Care Reports and file a copy of the "Pyxis Receipt" with the patient care report. This guidance applies to all medications, controlled and uncontrolled.

All medications & formularies used from General Leonard Wood Army Community Hospital – Emergency Department Pyxis-II shall be "Patient Specific" and ordered specifically by a provider (Physician, Physician Assistant or Nurse Practitioner). This order may be written or verbal.

Specific formulary information such as category, alternate names, regimens, indications, dosages, administration routes, contraindications, reactions, etc. may be found in the USAMEDDAC Fort Leonard Wood Medical Services Formulary, Physician Drug Reference guide or other approved paramedic & nursing drug guide references.

These medications and formularies are identified below.

Medications & Formularies

- 1-2-3 Mouthwash
- Acetaminophen 325mg supp
- Acetaminophen 120mg supp
- Acetaminophen 650mg supp
- Acetaminophen / Codeine 12.5ml elix
- Acetaminophen and Oxycodone (ud) tab
- Acetaminophen ud 160mg / 5ml soln
- Acetaminophen-drops 10% soln
- Acetaminophen / Codeine 30mg tab
- Acetazolamide 500mg inj
- Acetone 120ml liq
- Acetylcysteine 200mg.ml 30ml soln
- Activated char w/sorbitol (red) 25gm susp
- Activated charcoal (blue) 25gm susp
- Acyclovir 50mg / 1ml inj
- Adenosine 3mg / 2ml inj
- Albuterol 0.5% soln
- Albuterol 0.5% ud inha
- Albuterol inh soln 0.083% 2.5mg / 3ml amp
- Alteplase (TPA) 100mg inj
- Aminophylline 25 mg/ml soln
- Amirdarone 50 mg/ml amp
- Ammonia aromatic amp
- Ampicillin 1gm in 50ml ns addv 1gm / 50 ml advantage
- Ampicillin 2gm in 100ml ns addv 2gm / 100 ml advantage
- Ampicillin / sulbactam 3gm addv 3 gm/ 100 ml advantage
- Antivenin polyval soln
- Aspirin 325 mg tab
- Aspirin 300 mg supp
- Aspirin 81mg chewable tab
- Atenolol 50mg tab
- Atropine 1 mg/ml inj
- Atropine bj 0.1mg/ml inj
- Auralgan (er) soln
- Azithromycin 1 gm
- Azithromycin 500 mg inj
- Bacitracin 15 gm oint
- Bacitracin opt 500 u/gm oint
- Benzoin 10 % tinc
- Benzotropine mesylate 1 mg/ml inj
- Biscodyl 10mg supp
- Bumetanide 0.25mg/ml vial
- Bupivacaine 0.5% inj
- Bupivacaine 0.75% inj
- Butorphanol 2mg / 1ml soln
- Caffeine & sod benzoate 250 mg/ml inj
- Calcium chloride 100 mg/ml inj
- Calcium gluconate 10 % soln
- Captopril 25 mg tab
- Cefazolin 1gm / ns 100ml 1gm / 100 ml advantage
- Cefotaxime 2 gm inj
- Cefotetan 2 gm solr
- Ceftazidime 2 gm inj
- Ceftriaxone 1 gm inj
- Ceftriaxone 1gm / 50 ns 1 gm / 50 ml advantage
